Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Lobsiger et al. (US006168122B1).

Re claim 1, Lobsiger et al. discloses a wire harness mounting method for mounting a wire harness to a wire harness holding portion provided on a vehicle-mounted component or a vehicle main body, wherein the wire harness consists of two or more sub wire harnesses (42, 104 for example) produced separately, the sub wire harnesses being arranged on the wire harness holding portion (10 for example) and collectively held by the wire harness holding portion to thereby complete the mounting of the wire harness (see figures 2-4).
